Abstract

An earlier January 17, 2026 DOI-registry snapshot by Lee Sharks, with Claude named on the self-entry, listing ninety-one Crimson Hexagon / NH-OS documents including the registry itself.

This snapshot predates the three-document IDP / Rebekah Cranes expansion present in #320, although both records use DOI 10.5281/zenodo.18284689 and the same general title. It is a historical registry state, not the current archive index or final authority for creators, document types, licenses, or statuses.
