Abstract

Seats Sappho fragment 31 as a diplomatic layer extracted verbatim from the archive's own seated carrier (EA-CORPORA-01/06, Longinus at Subl 10.2, Perseus Parisinus tradition, commit-pinned): sixteen lines, verse-breaks and indents as carried, no editorial normalization, ending at the hanging line 31.16 ἀλλὰ πᾶν τολματόν, ἐπεὶ καὶ πένητα — the cutoff the erratum sequence reads as completion. The fragment's textual situation is stated in the layer's own header: sole direct carrier Longinus, indirect witness Catullus 51 (seat 02), no papyrus witness. Public-domain reading editions queued for the wider-fragment layer; Voigt and Campbell in copyright, cited not seated. Tenth seat under EA-OMEGA-BUILD-01 (#1498).
