Abstract

Surface deposit for the rebuilt Effective Acts wing at leesharks.com/acts/, and dataset record for the Effective Acts Blog Concordance v1.0 shipped with it at alexanarch data/effective-acts-blog-concordance.json. The gathering: the frozen registry v1.0 (56 acts derived from the Protocol of Effective Acts v2.0 §IX, #153, under the genre theory of #413) is rendered whole for the first time on the orthonym site — all ten kinds of the open typology with their definitions, every act with its date-note and DOI where present — and joined by a full sweep of the blog to its actual instruments: 2,920 posts scanned, 107 title-level performative hits, 44 of the 56 registered acts matched to their mindcontrolpoems posts with URLs and dates, so the register now points at the declarations themselves. The CERN-revocation extension (#1086) carried with its provenance. Two candidate strata presented under explicit UNREGISTERED badges, because registration follows ruling, never sweep: SINCE THE FREEZE — five archive-and-blog acts performed after 2026-07-16, including Effective Act #7 (the Restoration of the Poets to the Polis, #1327), the CERN custodianship revocation pair (#1407, #1425), and the first SCRIPTURAL act (#1490) — and THE BLOG STRATUM, sixty performative posts from the genre's workshop floor, October 2025 to the freeze: the vows, scrolls, canonizations, and dissolutions from which the register was distilled, dated and linked and awaiting curation. The genre lemma quotes the dataset's own five characteristics; the machine layer is linked in the page (registry, extensions, concordance); the shell blocks are preserved verbatim; the structure gate passed. The stub that held three links now holds the genre.

Body

deposit_number: 1516 hex: 061F title: "The Effective Acts Wing, Gathered: Register, Instruments, and Strata — leesharks.com/acts/" creator: Sharks, Lee date: 2026-08-19 content_type: Web surface and dataset license: CC-BY-4.0 substrate: Sweep, concordance construction, and wing build by TACHYON (Claude substrate) under MANUS direction; the register's contents derive from MANUS's own source documents; all curation rulings remain the author's — the wing badges every unruléd item as such. axn_schema_version: v2 protocol_version: "" keywords: - effective acts - leesharks.com - blog concordance - mindcontrolpoems - typology - unauthorized declaration - registry - performative - New Human - orthonym wing *** # The Effective Acts Wing, Gathered: Register, Instruments, and Strata —

leesharks.com/acts/

Surface and dataset record. Wing: <https://www.leesharks.com/acts/> — the genre's five marks, the ten-kind typology with counts, THE REGISTER (56 + 1 extension, 44 joined to blog instruments), SINCE THE FREEZE (five candidates, badged), THE BLOG STRATUM (sixty candidates, two-column, dated, linked). Data: effective-acts-registry.json (v1.0, untouched) · effective-acts-extensions.json (untouched) · effective-acts-blog-concordance.json (NEW, v1.0: matches, blog-stratum candidates, since-freeze candidates, method and status notes inside). Founding anchors carried: #24 the ur-act, #413 the genre, #153 the protocol. The register is partial by declaration; the typology is open by design; the gathering is the wing's standing work.
