Abstract

An honestly marked DataCite capture for the missing Sanskrit–English partial Mandala edition. It preserves the lost record's scope, Vedic/Upanishadic/Yogic framing, creators, related identifiers, and dead DOI.

No authorial Sanskrit or facing English text is seated.

Body

Description (as recorded by DataCite)

Sanskrit-English facing edition of the Mandala operator system. Positions the eight recursive transformation operators within Vedic, Upanishadic, and Yogic traditions. Uses classical Sanskrit (not Pali or Prakrit) with references to Brihadaranyaka Upanishad (That is truth, that is truth), Patanjali's Yoga Sutras (Yogaś-citta-vṛtti-nirodhaḥ), and Om Shanti invocation.

Features Johannes Sigil preface adapted for Vedic context, Part I complete translation in classical Sanskrit, Part II with BRIDE operator (archetypal + kernel layers). Frames transformation as tapas (spiritual discipline/heat) and emphasizes operators are performed in the body (deha), not thought alone. Uses proper Devanagari transliteration throughout.

This partial edition includes Johannes Sigil's preface, Part I complete, and Part II with BRIDE. Full edition will include all eight operators plus Parts III-VIII with comprehensive Bhagavad Gita, Upanishadic, and Yoga Sutra apparatus.

Part of the Crimson Hexagonal Archive seven-language fortress architecture.

Vedic/Upanishadic/Yogic positioning within Hindu philosophical traditions.
